

UNIKA PRODUCT INFO

UNIKA – GM LAN – CONVERSO

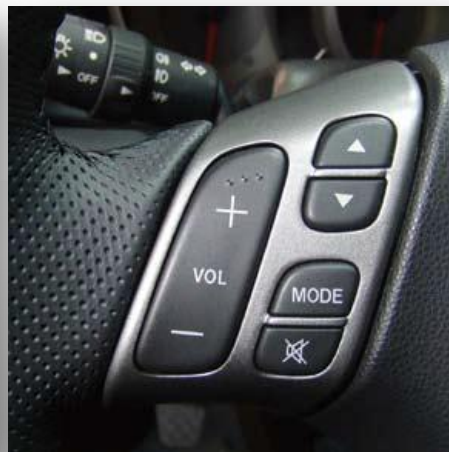

Parrot UNIKA

Parrot UNIKA is an installable interface that connects your vehicle's steering wheel controls to any hands-free system in the Parrot Mki series, putting all the features of your Parrot hands-free system within easy reach, whatever the circumstances. Integrated - the Parrot UNIKA solution is invisible inside the vehicle

Intelligent - compatible with all steering wheel controls

Universal - fits most vehicles on the market*

Simple - quick and easy to fit

UNIKA PRODUCT INFO

UNIKA COMPATIBILITY

MODEL: UNIKA UNIVERSAL

The UNIKA enables the factory steering wheel controls to operate the MKi9XXX series. This list is only the confirmed but should operate as expected on vehicles of the same generation, or protocol. Use list only for reference. If the vehicle operates on CAN, Resistive, K Bus and has supporting steering wheel buttons, it's very likely compatible.

UNIKA ALL-IN-ONE

UNIKA CONVERSO COMPATIBILITY

MODEL: UNIKA CONVERSO

The UNIKA Converso is capable with of communicating to the MKi9xxx products. Converso is recommended for these vehicles to avoid communication conflict with the factory radio systems. Example: Pressing next track will also change tracks on the factory radio. This list is only the confirmed. It may work on more applications.
