

NEW, EXCLUSIVE TWIST-OFF REAR VISION MIRROR LETS YOU SERVE EVEN MORE CUSTOMERS

Authentic OEM Rear Vision Mirror Fits A Growing List Of Vehicles

The new 9002-9618 rear vision enabled mirror from Brandmotion fills a significant gap in your aftermarket solutions. Previously unavailable by any aftermarket parts supplier, the company's latest Authentic OEM rear vision-equipped mirror is an exclusive aftermarket solution designed to work with the "twist and remove" tri-lobe fittings currently used on many manufacturers' factory installed mirrors. With the 9002-9618, you can finally satisfy the needs of a wide range of vehicle owners who demand the safety and security of a rear-vision system but whose only previous solution was an expensive radio upgrade.

An Application For Every Vehicle

The release of the 9002-9618 Rear-Vision System is compatible with a growing list of late-model vehicles including:

- 2011-2013 Dodge Journey
- 2013 Dodge Charger
- 2013 Dodge Ram
- 2013 Jeep Grand Cherokee
- Select 2013 Ford Escape
- Select 2013 Ford Focus

Features & Benefits

- Provides rear-vision solution without the need for an expensive radio replacement.
- Generous, 3.5-inch color screen appears on rearview mirror when vehicle is in reverse.
- SlimLine mirror is more stylish and less bulky than factory-installed equipment.
- Installs in minutes.
- Compatible with all standard (composite output) rearview cameras.

The 9618 is available as a standalone component, or packaged in a complete kit with Brandmotion's 8601 Authentic OEM Camera.

- 9618 slimline auto-dimming mirror with twist off mount.
- 9002-8625 OEM Recessed-lip camera with slimline auto-dimming mirror with twist-off mount and harness.
